

Turning Creative into Gold

A Roadmap for Solving Your Needs with Greater Ease

1

Wake-up the Creative

You have a pot of gold inside you! Your creative self can move mountains. Well beyond creating art, it creates your life! IT is your natural problem solver. Wake UP the creative in YOU and put it to work at solving your needs!

Learning how to work WITH your own creative capacity is the path to creating solutions for every part of life!
Our creative IS our gold.

Get Out of the Way

Allow your creative self to thrive. Play. Let go. Don't think. Engage what may seem illogical. Then, pay attention to what shows up: new ideas, chance encounters, synchronicity, that all present new options.

2

Re-frame Problems

Re-frame problems into creative opportunities that put your creative self on task, to attract solutions. Using open-ended questions that "direct" your creative, you create a "void" that IT wants to fill!

3

and more!

cre•a•tive so•lu•tion•ing:

the art of UTILIZING your own creative, to create solutions for your life and world

This is Just the Tip of the Iceberg!
